

Rail Bolt

The Rail Bolt is a specialty case hardened bolt seal designed for railcar shipments of new automobiles in extreme security situations that require the strongest bolts available. Unique 1/2" bolt diameter provides the strength necessary for extreme security circumstances.

APPLICATIONS

- Rail Cars
- Containers
- Truck/Trailer Door

FEATURES

- High strength, tamper-resistant steel bolt offers extreme durability in all conditions
- Black Oxide plating for corrosion resistance
- Metal locking end
- Body has powder coat option

MATERIAL

- Body: Steel
- Bolt: Hardened steel
- Rail Lock removal tool required for seal removal.

DIMENSIONS

Bolt Length: 3" (72.20mm) 3.06" (77.73mm)

Bolt Diameter: .5" (12.7mm)

Body Length: .9" (22.86mm)

Body Diameter: .9" (22.86mm)

MARKING/PRINTING

- Laser -
- Numbering: 10 Digits, Lettering: 4 lines of 9 characters

STANDARD COLORS

White / Green / Silver

PACKAGING

100 seal per box; 29 lbs. 13.15kg)

Box dimensions: 10"x 10"x 5.5" (254mm x 254mm x 140mm)
