

KNRC - COVERT NON-RESIDUE VOID SEAL LABEL

The KNRC is a covert/clear NON-RESIDUE reaction VOIDING self adhesive security seal. Although the material is clear it displays an obvious VOID/OPEN security message within the seal itself when the seal is lifted, while leaving NO adhesive. It gives visual evidence of tampering without drawing attention to itself in aesthetic or sensitive areas.

APPLICATIONS

- Search & Seal POLSA
- Covert/clandestine sealing
- Public areas
- Doors and hatches
- Cars and vans
- Sensitive security areas
